Amrit Organic “Raw Skin Care Organic Facial Guide & Descriptions

Raw Skin Care is the first Professional & Retail Product Organic Facial Line that is made of all sustainable organic, botanical, natural and wild crafted ingredients with no synthetics, parabens, toxins, stabilizers, preservatives or chemicals. Raw Skin Care focuses on the purest formulation with quality & organic knowledge. Each Raw Skin Care Collection is customizable to meet the skin’s immediate needs & allows for a healthier approach for beautiful skin.

Raw Skin Care Organic Professional Facials include:

Purity Nourishment Facial

Perfect for problematic to oily skins nurturing them back to balance while controlling oil production. Organic essential oils of Ylang Ylang, Patchouli, Lemongrass and Rosemary are laced with organic herbs of angelica, natural clays and nurturing organic plant flours and oils allowing the skin to be purified and refreshed while rebalancing oil production. **Home Care** includes Purifying Cleanser, Balancing Calendula Toner, Purifying Multi Organic Plant Skin Smoother and Balancing Skin Conditioner for Moisture

Complete Balance Facial

Perfect for most confused combo skins or between seasons when skin becomes unbalanced and congested. Organic essential oils of Geranium, Lavender, Ylang Ylang and Patchouli are mixed to perfection making this a super balancing and healing treatment. In addition natural green and white clays along with organic plant brans and freeze dried cucumber completely refresh and correct inflammation. **Home Care** includes a Complete Balance Cleanser, Balancing Lavender Toner, Balancing Clay and Plant Bran Skin Smoother and Soothing and Calming Skin Conditioner for Balanced Moisture.

Perfect Comfort Facial

Perfectly relieves dry skin’s uncomfortable condition, while nourishing it back to normal. Organic essential oils of Geranium, Palma Rosa, Jasmine and Lavender soothe skin irritation, bring out beauty and replenish needed oil nutrients. Combined with freeze dried aloe vera and cucumber, along with natural clays and sea luffas the skin is purified, super charged for cell renewal and relieved from dry stress. **Home Care** includes Perfect Comfort Cleanser, Rehydrating and PH Balancing Rose Geranium Toner, Comforting and effective Skin Smoother and Super Nourishing Skin Conditioner for Moisture.

Golden Nourishment “Anti Aging” Facial

Perfect between High Science peels and treatments, as well as a favorite natural strength replenishing facial for true natural anti-aging health. Organic Essential Oils of Cinnamon, Clove, Rosemary and Lemon make this a good cell stimulating and nutrient replenishing treatment, in addition as a support to anti-aging ingredients for maximum results. Blended with organic Pumpkin seed oil loaded with three omegas and Vitamins A,D,C, natural exfoliating pumpkin flake, soothing organic angelica with organic plant flours and brans this is the most purifying and super nutrient treatment. **Home Care** includes Golden Nourishment Cleanser, soothing Lemon Balm Toner, Perfect Golden Skin Smoother and Golden Pumpkin Skin Conditioner.

Amrit Organic "Raw Skin Care"

Raw Skin Care organic Cleansers!

Organic Cleanser:

Organic Castille

Castille Soap made exclusively from vegetable oil rather than animal fat or synthetic substances. Made from olive oil but there's a wide variety of Castile variants that use oil from plants such as coconut and jojoba. The simple nature of the soap means a lesser environmental impact due to reduced waste stream during manufacture and also faster biodegradability. Originating in the [Castile](#) region of [Spain](#)

Organic Castille Soap Ingredients

Citric Acid is a natural product which is derived mainly from citrus fruits and is used to make bath fizzies. Citric acid is a relatively strong organic acid, and is very [soluble](#) in water. Citric acid and its salts are widely used because they are [nontoxic](#), safe to handle, and easily biodegraded. Castor Oil derived from the castor bean and obtained by cold pressure, Castor Oil is rich in fatty acids that are very moisturizing to the skin. This oil acts as a humectant, attracting moisture to skin. Plus A superb conditioner that has been proven to strengthen the hair shaft.

Castor oil comes from the castor bean plant, *Ricinus communis*, is a "native of tropical Africa cultivated in several varieties for the oil found in its leaves and for its bold foliage"(Abler and Abler). The "stalked leaves consist of usually **eight** radiating, pointed leaflets with slightly serrated edges and prominent central veins. Many varieties are green, but some are reddish brown"(Cooper and Johnson). The flowers are green and inconspicuous, but pink or red in the pigmented varieties. Many stamens are near the base and branching pistils are near the top of the flower. The soft-spine fruits containing attractively **mottled seeds** are distinctive features of the plant

Saponified The term saponification is the name given to the chemical reaction that occurs when a vegetable oil or animal fat is mixed with a strong alkali. The products of the reaction are two: soap and glycerin. Water is also present, but it does not enter into the chemical reaction

- The water is only a vehicle for the alkali, which is otherwise a dry powder.
- The name saponification literally means "soap making"
- The root word, "sapo", is Latin for soap

The Italian word for soap is sapone. Soap making as an art has its origins in ancient Babylon around 2500 - 2800 BC. The oils used in modern handmade soap are carefully chosen by the soap maker for the character they impart to the final soap.

Coconut oil creates lots of glycerin, makes big bubbly lather, and is very stable. Olive oil has natural antioxidants and its soap makes a creamier lather

Ingredient Overview by Collection:

Purity Nourishment Skin Care Collection

Feature therapy: Organic Essential Oil infusion of Ylang Ylang, Patchouli, Lavender and Rosemary

Organic Toner:

Organic Calendula Hydrosol...

Calendula is a well-known and loved herb for its therapeutic properties, and this true Calendula Hydrosol has an infinite amount of possible uses! Beneficial for skin disorders, rashes, hotspots, epidermal healing, scratches, abrasions, sunburn, scars, and an all around skin tonic. Calendula Hydrosol has anti-inflammatory, anti-septic, and astringent properties. The aroma of our Calendula hydrosol is refreshing, soothing, sweet, and mildly floral. This hydrosol is a perfect facial toner, and may be included in your skincare and herbal formulations, added to bathwater, or used within a compress for aches and sprains.

Organic Skin Smoother:

Organic Oat Bran (moisture binding, soft texture & silkens), Organic Cornmeal (stabilizes texture for deep exfoliation and hold form), Organic Oat Flour (Vitamin rich, light yet binding & soften) & White Clay (purifying & lifting & toning)

Perfect for all skins that want purification and super nutrition with loads of anti-oxidant health!

Raw Skin Care Facial Basics!

Collection Facial Items...

- Cleanser
- Hydrosol
- Skin Smoother
- Skin-Mask
- Conditioning Oil
- Two Warm Towels (soaked in warm water and several drops of Conditioning Oil or any Amrit Organic Essential Oils).
- Fan Brush
- Small Mixing Bowl
- Larger Water Bowl
- Cotton Eye pads, 4X4s, Kleenex, Disposable Vinyl Gloves

Facial Steps...

- Begin with a first cleansing to remove make up by mixing several drops of the **Cleanser** with water in the small bowl, whip with fan brush, apply and massage on the skin.
- Remove with 4X4s or sponges, blot and do a skin analysis. Make recommendation here.
- Do a second cleansing but add one drop of **Skin Conditioner** to super soften and lift all debris for a deep cleansing massage. Remove the same way.
- Balance skin with a refreshing mist of **Hydrosol**
- Exfoliation with the **Skin Smoother**. Rinse the small bowl and add ¼ to ½ teaspoon of **Skin Smoother**, add a little water and mix into a smooth paste, apply to the skin, turn on the steamer. Massage for less than one min. and let skin rest under steam with **Skin Smoother** on (the smoother activated by the brief massage will continue softening the skin and eliminate debris) or if the skin is very neglected continue the massage for three mins with steam, adding water to the surface of the skin if needed. No more the 5 mins of steam.
- Remove with one **Aromatherapy** infused hot towel.
- Optional-Prep for extractions by spreading a small amount of **Skin Conditioner** on the areas of concern keeping the skin soft and warm for maximum results.
- After extraction mist with **Hydrosol** and use **High Frequency** to kill any bacterial spread from extraction.
- Facial massage is the most relaxing after extractions. Use the **Skin Conditioner** for massage by placing two drops in the palm and spread over the entire face, decollate, shoulders and back of neck. If you are only doing the face use one drop!
- After massage, leave **Skin Conditioner** on or add more as a serum. Mix ¼ to ½ teaspoon of **Skin Mask** with water and blend add one drop of **Skin Conditioner** to make the mask full bodied for firming and to stimulate nutrition infusion. Leave mask on 5-7 mins/ no longer the 10 mins.
- While the client is resting with mask, apply **Amrit Organic Post Perfection** to hands and arms and do a massage. Perfect added value...even more with a foot massage.
- After **Skin Mask**, take the second **Aromatherapy** infused warm towel and remove **Skin Mask**.
- Mist the skin with **Hydrosol**, apply **Amrit Organic Eye** and **Lip Organic Serum** and one drop of **Skin Conditioner** to rehydrate and condition skin with more protective nutrition.
- Apply Sun Screen. Now recommend your **Raw Skin Home Care**.

Cost Per-Facial Treatment: You treatment costs will vary matching your spas custom facial steps and culture. This facial with added options product cost (measured correctly): \$2.37; can vary up to 2.95 if there is waste in this protocol.
